36,000			·	<u>n</u>	Ē	Wal	ě	약	긆	Ħe	Cash given to construction company as partial payment for the new building	par	γ	par	8	Ŝ.	덚	nstr	60	Wen	Sh
\$ 96,000		:			:		:	:	•	ā	Cash paid to previous owner of land and old building.	ē.	o e	an	9	Š	20	Š	pre	96	Sn

In addition to the above, you discover that cash receipts of \$600 from selling materials salvaged from the old building were credited to Miscellaneous Revenues in 2002. Digging deeper, you find that the plant manager spent all of his time for the first nine months of 2002 supervising installation of land improvements (10%), building construction (40%), and installation of machinery (50%). The plant manager's nine-month salary of \$54,000 was debited to Officers' Salaries Expense.

Required

(25%)

1. Compute the correct costs of Land, Land Improvements, Building, and Machinery.

2. Prepare one compound journal entry to reclassify and adjust the accounts and to liminate the Fixed Assets account. Do not attempt to record depreciation for the

活:背面有試題

Cleanfast Janitorial Service was started 2 years ago by Pat Hardy. Because business has been exceptionally good, Pat decided on July 1, 1999, to expand operations by acquiring an additional truck and hiring two more assistants. To finance the expansion, Pat obtained on July 1, 1999, a \$25,000, 10% bank loan, payable \$10,000 on July 1, 2000, and the balance on July 1, 2001. The terms of the loan require the borrower to have \$10,000 more current assets than current liabilities at December 31, 1999. If these terms are not met, the bank loan will be refinanced at 15% interest. At December 31, 1999, the accountant for Cleanfast Janitorial Service Inc. prepared the following balance sheet:

CLEANFAST JANITORIAL SERVICE Balance Sheet December 31, 1999

Owner's equity Pat Hardy, capital Total liabilities and owner's equity	Total liabilities	Long-term liability Notes payable	Total current liabilities	Accounts payable	Current liabilities	Liabilities and Owner's Equity	Total assets	Delivery trucks (net)	Cleaning equipment (net)	Property, plant, and equipment	Total current assets	Prepaid insurance	Janitorial supplies	Accounts receivable	Cash	Current assets	Assets	
						s Equity		34,000	\$22,000									
\$4,000 \$81,500	27,500	15,000	12,500	2,500	e10 000		\$81,500	56,000			25,500	4,800	5,200	9,000	\$ 6,500			

Pat presented the balance sheet to the bank's loan office on January 2, 2000, confident that the company had met the terms of the loan. The loan officer was not impressed. She said, "We need financial statements audited by a CPA." A CPA was hired and immediately realized that the balance sheet had been prepared from a trial balance and not from an adjusted trial balance. The adjustment data at the balance sheet date consisted of the following:

Earned but unbilled janitorial services were \$3,000

Janitorial supplies on hand were \$3,500.

for cleaning equipment and \$5,000 for delivery trucks as of January 1, 1999.

Depreciation for 1999 was \$2,000 for cleaning equipment and \$5,000 for delivery (24%)

The amounts for plant assets were net of accumulated depreciation of \$4,000

Interest on the bank loan was not recorded.

Prepaid insurance was a 3-year policy dated January 1, 1999. December expenses incurred but unpaid at December 31, \$300

- Required
- What are the correct amounts of total assets, total current assets, and total current liabilities?
 Were the terms of the bank loan met? Explain.
